.....

Full-stack web developer with a passion for learning new technologies and expanding my skill set. Recently earned a certificate in full-stack development from the University of Oregon Coding Bootcamp. Among my team members I'm known as a reliable workhorse and a creative problem solver. My goal with each project is to write clean code, and create applications with user friendly interfaces. I'm excited to leverage my skills as part of a first-rate team to create user friendly experiences on the web.

TECHNICAL SKILLS

Languages: HTML, CSS, and JavaScript

Frameworks: React, Express, jQuery, and Bootstrap

Core Concepts: Familiarity with REST APIs, experience working with a team using GitHub workflow, developing MERN stack applications

PROJECTS

Chore It Up | <https://github.com/Bin-Ostroqski/chore-it-up> | <https://floating-atoll-58183.herokuapp.com/>

- An application for managing household chores with non-traditional living situations in mind.
- For this project I worked on the front-end. My responsibilities included styling, creating the log-in/sign-up page, functionality for creating groups, as well as populating chore lists on the homepage and the "Your Chores" page.
- MongoDB, Express, React, Node, and Chakra

Dose | <https://github.com/kfish2/dose> | <https://cryptic-inlet-45736.herokuapp.com>

- Application for managing prescriptions and scheduling text reminders for refill dates.
- This project I worked on the backend. Other than assisting with general backend setup, I was solely responsible for implementing twilio in our project for the text reminders.
- Twilio / Express.js

Daily Cocktail | <https://github.com/slorreina369/cocktail-day> |

<https://slorreina369.github.io/cocktail-day>

- Random cocktail generator for getting recipes based on the weather in your city
- I was responsible for getting weather data based on the searched location to make the cocktail recommendations.
- JavaScript / OpenWeather API

EXPERIENCE

Sales and Service

Les Schwab Tire Center

2014 – PRESENT
